

Kindergarten Parent Testimonials

Holy Comforter Episcopal Kindergarten offers an exceptional kindergarten program that truly sets the standard for area schools, both public and private. The administrators and teachers tirelessly work to provide a well-balanced early childhood experience, placing a premium on both academic rigor and social-emotional development for our young children. Students benefit from a phonics-based reading program, reflective of evidence-based literacy instruction and the science of reading. Teachers differentiate instruction to reach every student and ensure that they depart for first grade as readers and writers with a strong foundation in mathematics. More importantly students become confident, thoughtful, and empathetic towards their peers. The classrooms are models for inclusion, and teachers are prepared to support unique learning needs and manage behavioral demands. As an educator, and a parent, I felt beyond fortunate to have my child be a member of this extraordinary and nurturing community.

Jennifer Gant

Kindergarten Parent 2022-2023

My two children attended HCEP & K between 2018 and 2023. It's an amazing school that we miss a lot! My children have very different personalities and learning styles but both were taught in a way that kept them engaged and fostered a love of learning that continues. The staff made my family feel welcome from day one and guided us through some parenting challenges with wisdom, grace and humor. We all made friends we'll keep long after graduation and we'll always consider the HCEP & K community to be family!

Kindergarten Parents 2021-2022 & 2022-2023

Our twins were in pre-k and kindergarten at HCEP & K and we can't say enough about their wonderful experience! HCEP & K teachers were incredibly dedicated, communicative, compassionate and knowledgeable. The foundation HCEP & K set in both phonics and math has positioned our children for long-term success. Beyond the educational benefits we all met a wonderful group of friends whom we continue to spend time with.

Delia and Brandon Cook

Kindergarten Parents 2022-2023

Our son attended Holy Comforter Kindergarten after being in the school since he was two years old. The learning environment and culture at Holy Comforter is warm, welcoming, nurturing, and an enriching place for students. Each day, our son was excited to go to school and equally excited to show us the work that he brought home from class. We know he benefited from the smaller class size and the individual attention he received from his excellent teachers. The teachers were accessible and communicative to parents. Every week, our son was engaged in creative learning projects that sparked new interests in many topics and areas (e.g., science or arts). We were also very pleased that Spanish was part of the kindergarten curriculum and the teacher leading this program was equally exceptional. In the midst of the very uncertain coronavirus pandemic, Holy Comforter provided a safe, stable and enriching learning environment that we can't imagine not having as part of our child's early life.

Kindergarten Parents 2020-2021 & 2022-2023

Our experience with the Kindergarten Program at HCEP & K has been a rewarding one, and enrolling both of our children in it has proven to be one of the best decisions we could have made as parents. We believe that children build academic, social, and disciplinary habits at a very early age, with kindergarten being a critical formative stage. The curriculum and the caliber of teachers who lead this program ensure that by the end of it, the child is not only prepared for elementary school academically, but acquires basic habits that shape the way they learn, the way they relate socially to their peers, and how they behave in any environment they are put in. In the case of our daughter, her academic performance at elementary school was definitely above her peers after graduating from HCEP & K, and the friendships that she has made in kindergarten have truly been lasting until today (she is currently in 6th grade). Being part of the HCEP Kindergarten family has been beneficial for us as parents, as well. Throughout the years, teachers that we have met at HCEP & K have been invaluable resources in advising for the growth and development of both of our children, and it is incredible how invested these teachers stay in the success of their students long after they graduate from the school. I highly recommend this kindergarten program for any family looking for both a nurturing environment and a robust pedagogy.
